COLLNET 2022 will provide an unique platform for the Librarians, Information Professionals, Researchers and Practitioners to share experiences, ideas, research results, meeting and networking on all aspects of webometrics, informetrics and scientometrics.

Special Libraries Association (SLA), USA

The Special Libraries Association (SLA) with its headquarter in USA, is a non-profit global organization for information professionals and their strategic partners. The SLA was established in the year 1909; it is more than a hundred year old organization. It is reckoned as one of the largest professional non-profit associations across the globe with 4,000 members in 83 countries. The wide range of professional activities undertaken by this association can be gauged by the fact that it has 75 communities. For further details visit <http://www.sla.org>

SLA Asian Chapter

The Asian chapter of SLA is one of the fastest growing chapters with members from Asian and western countries. It has more than 150 members from India, Indonesia, Laos, Macau, Malaysia, Myanmar, Mongolia, Nepal, Pakistan, Philippines, Singapore, South Korea, Sri Lanka, Taiwan, Thailand, Vietnam, Australia, UK, and USA. For details Please visit <http://asia.sla.org>

Society for Library Professionals (SLP)

The Society for Library Professionals (SLP) was founded in the year 2008 under the Societies Registration Act 1860. The role of this Society is to achieve high standard in the field of librarianship. This will be achieved by the development of strong linkages among libraries and information centres across the globe; advancement of library and

information science profession in India by fostering collaboration with national and international agencies; and also by promoting educational exchange programmes with global partners. For further details visit <http://www.slp.org.in>

Conference Objectives

No doubt the libraries are changing at a fast pace primarily due to advancement in ICT. We are practically in an era of Internet driven librarianship. People are now turning to their mobile devices serviced by commercial firms to meet their needs of knowledge and information. On the other hand the community of library and information science professionals are duty bound. They have to ensure 'sustained, free and equitable access to knowledge and preservation of our cultural and scientific heritage'. The principal objective of this international event is to provide a forum for exchange of knowledge and skills relevant to Information Professionals in Asia with a global perspective. The conference will also offer opportunity to put forward innovative plans, debate classic as well as new ideas, and promote closer cooperation among participants from diverse background. It will solicit high quality research papers and provide an international forum for researchers, developers and practitioners to present applied and theoretical research findings.

Some of the major objectives are to:

- Ensure that information professionals are acquainted with the latest developments in the library and information world.
- Bring together the dispersed community of library professionals to share their experiences through a common platform.
- Assist libraries and library professionals in implementing their development plans.
- Learn innovative library tools and technologies used to create and deliver better library support services.
- Strengthen academic collaboration and strategic alliances for the development of special libraries

Prospective Participants: Who should attend?

This major academic and professional event anticipates global participation. Information scientists and professionals involved in library research, information resource management, technology application, and other related disciplines in the field of library and information studies are welcome to participate. Following are the various categories of professionals who are expected to register for the conference.

- Library and information science professionals
- Scientists
- Information technology professionals
- Knowledge workers
- Policy makers
- Educationists and academicians
- E-learning communities
- Content and knowledge managers
